ERIC JOHN A. BATINO

IT Support Specialist | Windows & Helpdesk Support | Network Support

Tagum City, Philippines | ericjohnbatino0821@gmail.com | +63 9565795382 | eric-dev.vercel.app | LinkedIn: ercjhnbtno

PROFESSIONAL SUMMARY

IT Support Specialist with approximately two years of experience in help desk, desktop, and network support in a hospital and a university. Hands-on with Windows troubleshooting, user account and access administration, printer and peripheral setup, and network connectivity (TCP/IP, DHCP, VLAN, Wi-Fi, VOIP). Documents issues and resolutions in a ticketing system and communicates clearly with non-technical staff. Experience supporting critical systems in a healthcare setting.

TECHNICAL SKILLS

- **Operating Systems:** Windows installation, configuration, and administration
- **Networking:** TCP/IP, DHCP, VLAN configuration, Wi-Fi and access point deployment, network troubleshooting, firewall fundamentals
- **Accounts and Access:** user account setup, access and permissions, Active Directory, Microsoft 365, Google Workspace, two-factor authentication support
- **Ticketing and Documentation:** OS Ticket, technical documentation, SOP creation
- **Hardware and Peripherals:** printers, workstation deployment, computer peripherals, preventive maintenance
- **Systems and Security:** virtual machines, backups, system monitoring, antivirus management, basic security best practices
- **Other:** MySQL, PHP, JavaScript, C#, Git/GitHub

PROFESSIONAL EXPERIENCE

IT Technical Support | University of Southeastern Philippines | 2025 – 2026

- Provided first-level support for hardware, software, network, and printer issues for faculty and staff.
- Installed, configured, and maintained Windows operating systems, business applications, and computer peripherals.
- Diagnosed and repaired printers and other IT equipment to keep them operational.
- Configured, deployed, and troubleshot wireless access points and Wi-Fi connectivity.
- Assisted with VLAN, DHCP, and TCP/IP configuration on the network infrastructure.
- Supported deployment and maintenance of virtual machines.
- Assisted with user account setup, system access, software installation, and workstation deployment.
- Performed system updates, backups, and preventive maintenance to reduce downtime.
- Documented issues, resolutions, and maintenance activities.

IT Officer-in-Charge, MIS Department | Tagum Global Medical Center Inc. | 2024 – 2025

- Managed IT infrastructure, servers, and digital record systems for a hospital.
- Administered user accounts, system access, and security permissions for critical hospital systems.
- Installed, configured, maintained, and troubleshot systems; performed preventive maintenance to minimize downtime.
- Monitored system performance, ran backups, and helped maintain data integrity.
- Provided technical support to end users and coordinated with other departments.

Web Developer (Project-Based) | 2023 – 2025

- Built web and mobile projects including a vehicle scheduling system, a car booking platform, an equipment reservation system, and an Android/IoT pest monitoring app.
